SUMMARY

Full-stack engineer turned founder, with a bias for shipping: production monorepos, async job pipelines, real-time systems, and cloud deploys that run unattended. Built and scaled Arth Saathi from idea to a live paying pilot, and TinyTalesVideos from prototype to a revenue-generating platform. Now sharpening infrastructure and deployment depth on the path to DevOps engineering, while pursuing B.Tech in CS & AI (expected 2027).

SKILLS

Languages: TypeScript, JavaScript, Python, SQL
Frontend: Next.js, React, React Native/Expo
Backend: Node.js, Express, Prisma, REST, tRPC, SSE, WebSocket
Databases: PostgreSQL, Redis, Supabase, Cloudflare D1
Cloud & Infra: AWS (EC2, S3), Vercel, Cloudflare Workers, Docker, CI/CD

EXPERIENCE

Full-Stack Developer, Intern Apr 2025 – Sep 2025
Wonder Creative Studio Bengaluru (Remote)

- **Engineered scalable backend services using Node.js, Express, and FastAPI** across multiple client projects, architecting RESTful APIs that supported diverse business logic while maintaining clean, maintainable code.
- **Built and integrated secure payment gateway systems** into production applications, ensuring reliable and seamless transaction flows for end users.
- **Developed cross-platform mobile experiences with React Native**, collaborating on AI-driven features to automate workflows and enhance platform capabilities for multiple client-facing products.
- *Node.js · Express · FastAPI · React Native · AWS · Docker*

Back End Developer, Intern Jan 2025 – Mar 2025
RenewBuy Gurugram

- Tested and validated REST APIs for health-insurance products using Pytest, improving test accuracy and coverage across core business logic.
- Used Pandas to process and validate CSV data feeds, catching inconsistencies before they reached downstream systems.
- Implemented a Redis caching layer for health-insurance APIs, reducing average API response times and server load.
- *FastAPI · Pytest · Pandas · MongoDB Atlas · Redis*

PROJECTS

TinyTalesVideos, Production AI Storybook & Video Platform | tinytalesvideos.com

- Shipped a full-stack monorepo (Next.js 15 + Express + Prisma/Postgres) that turns a child's photo + theme into an illustrated storybook and narrated video (Fal.ai PuLID face consistency, ElevenLabs TTS, FFmpeg assembly).
- Built a credit-safe async pipeline: pg-boss jobs, per-page S3 checkpointing (no re-spend on retries), stuck-job recovery, and live progress via Socket.IO; Razorpay payments; Docker on AWS EC2 with **24/7 unattended uptime**.
- *Next.js · Express · TypeScript · PostgreSQL · Prisma · Redis · AWS S3/EC2 · FFmpeg · Socket.IO*

Arth Saathi, AI-First OS for Small Indian Shops | arthsaathi.co.in

- Founder-built pnpm monorepo: Next.js 14 owner dashboard, Expo React Native app, Fastify/Prisma/Postgres backend, Auth.js phone OTP; **live pilot with early paying shops**.
- Designed a confirm-before-write LangGraph agent (Hinglish): AI proposes mutations → owner ConfirmationCard → commit + AuditLog only on approve; offline-first mobile sync with idempotent pull/push.
- *Next.js · Fastify · Expo RN · Prisma/Postgres · Auth.js · LangGraph · Claude · Azure Container Apps*

Additional freelance work: CMS platforms, creator portals, and Cloudflare Workers-based apps for client engagements

EDUCATION

Rishihood University Sonipat, Haryana
B.Tech, Computer Science & Artificial Intelligence Expected 2027

LEADERSHIP

Core Committee, Neutron Techfest (2024-26) — drove **2,000+** registrations & **1,400+** footfall; Head of Marketing, GDG Rishihood University.
